DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see request for reconsideration, filed 28 June 2005, with respect to claims 1-3, 6 and 7 have been fully considered and are persuasive. The rejection of claims 1-3, 6 and 7 has been withdrawn.
2. Regarding the provisional double patenting rejection made in the previous office action, it is noted that while the present case prints the original image data in a human readable form, the claims of 09/693,083 printed the transformed image. Upon further consideration, there is not thought to be proper motivation for changing the system claimed in 09/693,083 to print the original image data in human readable format instead of the transformed image data as claimed in the present application. Therefore, this provisional rejection has been withdrawn.

Allowable Subject Matter

3. Claims 1-3, 6, 7 and 9 are allowed.
4. The following is an examiner's statement of reasons for allowance: In regard to claims 1-3, 6 and 7, after further consideration the examiner agrees with the applicants arguments presented in the request for reconsideration filed on June 23, 2004.

Although Kuchta discloses storing an original image together with a transformed image and Soscia discloses printing data over the top of a photograph in invisible ink, proper motivation to print the image file of Kuchta (including the original image and the transformed image) over the top of a photographic print out of the original image using

the process of Soscia does not exist in the references. Therefore, the unique combination presented in claims 1-3, 6 and 7 is not taught or fairly suggested by the prior art, and the claims are considered to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
